Rulemaking

The Washington Medical Commission (commission) has officially filed a [CR-101](#) with the Office of the Code Reviser on August 6, 2020. The WSR# is 20-17-024.

The commission is considering adopting a new section of rule and amending WAC 246-919-340 to meet the requirements of [Senate Bill \(SB\) 6551](#) an act relating to integrating international medical graduates (IMG) into Washington's health care delivery system. The commission will consider creating an exceptional qualification waiver for international medical graduates pursuing a full medical license as well as creating a time-limited clinical experience license for those international medical graduates participating in a tuition based clinical experience program.

SB 6551 permits the commission to issue limited licenses to IMG. The bill also directs the commission to establish requirements for an exceptional qualification waiver in rule as well as establish requirements for a time-limited clinical experience license for IMG applicants. Establishing these requirements would reduce barriers for IMG applicants obtaining residency positions in Washington.
