Please keep in mind if you have a Droid/Android based device, the Remote Desktop Service is not supported at this time.

Below are the minimum system requirements needed to use GoToMeeting effectively.

Alternatively: GoToMeeting can check your systems compatibility by clicking this [LINK](https://support.logmeininc.com/gotomeeting/get-ready) or by copying and pasting this into your internet browser: [https://support.logmeininc.com/gotomeeting/get-ready](https://support.logmeininc.com/gotomeeting/get-ready)

| Operating system | Windows 7 - Windows 10  
| Mac OS X 10.9 (Mavericks) – Mac OS Catalina (10.15)  
| Linux/Ubuntu (Web App only)  
| Google Chrome OS (Web App only)  
| iOS 11 - iOS 12  
| Android OS 5 (Lollipop) - Android 9 (Pie)  
| Windows Phone 8, Windows 8RT or later |

| Web browser | Google Chrome v57 or later  
| Microsoft Edge v77 or later |

| Internet connection | Computer: 1 Mbps or better (broadband recommended) see How much bandwidth is used during a session?  
| Mobile device & Chromebook: 3G or better (WiFi recommended for VoIP audio) |

| Software | GoToMeeting desktop app (JavaScript enabled)  
| GoToMeeting Web App and screen sharing extension  
| GoToMeeting app from the [Apple Store](https://support.logmeininc.com/gotomeeting/get-ready), [Google Play Store](https://support.logmeininc.com/gotomeeting/get-ready), or [Windows Store](https://support.logmeininc.com/gotomeeting/get-ready) |

| Hardware | 2GB of RAM (minimum), 4GB or more of RAM (recommended)  
| Webcam for HDFaces  
| Microphone and speakers (USB headset recommended)** |

| Mobile device | iPhone 5 or later  
| iPad 3rd gen or later |

**Best practices for Voice over Internet Protocol (VoIP) also known as phone service over internet connection:**

- Get an inexpensive USB headset or one that plugs into the 3.5mm audio jack on the computer with Microphone (most new cellular phones come with headphones with a built in microphone).
- Use a fast Internet connection
- Turn off your smartphone
- Check your setup before the meeting
Mic and Speakers (VoIP):

- Test your speaker setup. Click “Audio Setup” in the Audio Pane to select the correct device. Mac users should click the speaker icon in the Audio Pane to select the correct device.
- Check the volume setting under Audio Setup. Click “Speakers Setup” and then click “Play Sound.” Adjust the slider bar to the desired volume.

Simple Troubleshooting Steps:

1. **Is your sound choppy?**
   - You could have a bad connection. Toggle once between the Use Telephone and the Mic and Speakers options.

2. **Are meeting attendees unable to hear you?**
   - Ensure your microphone isn’t muted by selecting the “Audio Setup” through the GoToMeeting controls.
   - If you’re is using a microphone with a mute/unmute button, is their microphone muted?
   - Do you have the correct audio option selected? You CANNOT use the Mic and Speakers option when you have Telephone selected.
   - It could be an Internet bandwidth issue. Close any other web pages you have open, including file sharing and music and video streaming. If your Internet connection is still too slow, you may need to use the Telephone option.

3. **Are you unable to hear meeting attendees who are presenting?**
   - Ensure your computer speakers are not muted by selecting the “Audio Setup” option in GoToMeeting, or;
   - Click the speaker icon (commonly found next to the clock in the lower right) and adjust your computer volume to desired levels.

Re: Revision of Initial Licensing Application  
Date: May 14, 2020

Background:

Last summer, due to a myriad of factors, licensing timelines increased significantly resulting in the Washington State Medical Association (WSMA) contacting Dr. Roberts on August 16, 2019 with a list of their concerns. He responded on August 22, 2019, but seeing little improvement in the licensing timelines, WSMA sent a letter to the Governor’s Office with their concerns on November 4, 2019.

There are many moving parts to processing an initial application for a license to practice in Washington, requiring a lot of information to be reviewed by the staff or Commission before approving the application. In the past, the applicant was tasked with obtaining this information and providing it to the Commission. Over the passage of time, this information can be obtained from other reliable sources, thus negating the requirement for the applicant to provide it.

Due to updated technology and access to information by other entities, we can now rely on getting and verifying much of the information required through the following pathways:

- **AMA (American Medical Association)** The profile information contained in the AMA Physician Masterfile meets selected primary source verification requirements of the Joint Commission, the Accreditation Association for Ambulatory Health Care (AAAHC) AND THE American Accreditation Health Care Commission (AAHCC) AND THE American Accreditation Health Care Commission (AAHCC)/Utilization Review Accreditation Commission (URAC). The AMA Physician Masterfile is also an NCQA-approved source for verification of medical school, post-graduate training, ABMS Board Certification, and federal DEA registration.

- **(FSMB) Federation of State Medical Boards Practitioner Profile** includes Board actions, NPI number, license history (out of state license) DEA, and ABMS certification if any.

- **(NPDB) National Practitioner Data Bank** The NPDB report provides information about medical malpractice payments, adverse licensure or privileges actions, or judgments and convictions, if any.

- **(WATCH) Washington Access to Criminal History Report** provided by the Washington State Patrol (WSP). All criminal history record information is provided to WSP by courts and criminal justice agencies.

- **FBI Fingerprints** The scanned fingerprints sent electronically to Washington State Patrol (WSP). If a national background check is required, WSP forwards the fingerprints to the Federal Bureau of Investigation (FBI).
**Application Review Process followed:**

The Licensing staff reviewed the current initial application for physicians and physician assistants. They are virtually identical, with some differences in education, so the physician application will be used as the example with the caveat that all changes made to the physician application will also be made to the PA application.

Licensing developed a matrix of where information currently required from the applicant could be obtained through another verifiable source as described above, thus negating the need for the applicant to provide it. Panel L met to review the current initial application and discuss each question asked and every piece of information requested from the applicant to determine if the question was still applicable and if the information requested could be lessened to remove some burden from the applicant and decrease processing timelines.

**Proposed Revisions:**

1. Remove NPI number requirement – provided by AMA Physician Profile
2. Add gender “X” option – required by Department.
3. Remove fax number requirement – we don’t use that technology anymore.
4. Personal data questions – retained, but reworded, and put in a slightly different chronology.
5. Education – Licensing will use the information contained in the AMA Physician Masterfile that meets selected primary source verification requirements of the Joint Commission, the Accreditation Association for Ambulatory Health Care (AAAHC), the American Accreditation Health Care Commission (AAHCC) and the American Accreditation Health Care Commission (AAHCC)/Utilization Review Accreditation Commission (URAC). The AMA Physician Masterfile an NCQA-approved source for verification of medical school, post-graduate training, ABMS Board Certification, and federal DEA registration.
6. Professional Experience – revised to request information for the last 7 years, with a requirement to explain any gaps of 30 days or more.
7. Hospital privileges – Information provided in applicant’s National Practitioner Data Bank (NPDB) and no longer needed to be supplied by applicant.
8. Licenses in other states – information provided by AMA Physical Profile, FSMB Practitioner Profile and NPDB report and no longer needed to be provided by applicant.
11. Attestation – remains the same.

**Request of Policy Committee**

Approve revisions requested by Panel L and move forward to full Commission vote.

**Enclosures**

2. Personal Data Questions

1. Do you have a medical condition which in any way currently impairs or limits your ability to practice your profession with reasonable skill and safety?

   If yes, please attach any supporting documentation and a detailed explanation.

   “Medical Condition” includes physiological, medical, mental or psychological conditions or disorders, such as, but not limited to orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, sleep disorder, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, intellectual disabilities, emotional or mental illness, specific learning disabilities, HIV disease, tuberculosis, drug addiction, and alcoholism.

   You may answer No if the behavior or condition is already known to the Washington Physician Health Program (WPHP). “Known to WPHP” means that you have informed WPHP of your behavior or conditions and you are complying with all of WPHP’s requirements for evaluation, treatment, and/or monitoring.

   If Yes, You must submit detailed information to the Commission that will allow the Commission to assess your ability to practice safely, competently, and without impairment to your professional judgment, skill, or knowledge. In addition to this information, you are required to provide copies of any related records, reports, evaluations, police reports, probation reports, and court records directly to the Commission.

   Note: If you answered “yes” to question 1, the licensing authority will assess the nature, severity, and the duration of the risks associated with the ongoing medical condition and the ongoing treatment to determine whether your license should be restricted, conditions imposed, or no license issued.

   The licensing authority may require you to undergo one or more mental, physical or psychological examination(s). This would be at your own expense. By submitting this application, you give consent to such an examination(s). You also agree the examination report(s) may be provided to the licensing authority. You waive all claims based on confidentiality or privileged communication. If you do not submit to a required examination(s) or provide the report(s) to the licensing authority, your application may be denied.

   Note: If you answered “yes” to any of the remaining questions, provide an explanation and certified copies of all judgments, decisions, orders, agreements and surrenders. The department does criminal background checks on all applicants.

2. Do you currently use chemical substance(s) in any way which impair or limit your ability to practice your profession with reasonable skill and safety? If yes, please explain.

   “Currently” means within the past six months.

   “Chemical substances” include alcohol, drugs, or medications, whether taken legally or illegally.

3. Have you ever been convicted, entered a plea of guilty, no contest, or a similar plea, or had prosecution or a sentence deferred or suspended as an adult or juvenile in any state or jurisdiction?

   Note: If you answered “yes” to question 3, you must send certified copies of all court documents related to your criminal history with your application. If you do not provide the documents, your application is incomplete and will not be considered.

   To protect the public, the department considers criminal history. A criminal history may not automatically bar you from obtaining a credential. However, failure to report criminal history may result in extra cost to you and the application may be delayed or denied.

6. Have you ever had any license, certificate, registration or other privilege to practice a health care profession denied, revoked, suspended, or restricted by a state, federal, or foreign authority?

If yes, please attach any supporting documentation and a detailed explanation

"Medical Condition" includes physiological, medical, mental or psychological conditions or disorders, such as, but not limited to orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, sleep disorder, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, intellectual disabilities, emotional or mental illness, specific learning disabilities, HIV disease, tuberculosis, drug addiction, and alcoholism.

You may answer No if the behavior or condition is already known to the Washington Physician Health Program (WPHP). "Known to WPHP" means that you have informed WPHP of your behavior or conditions and you are complying with all of WPHP's requirements for evaluation, treatment, and/or monitoring.

If Yes, you must submit detailed information to the Commission that will allow the Commission to assess your ability to practice safely, competently, and without impairment to your professional judgment, skill, or knowledge. In addition to this information, you are required to provide copies of any related records, reports, evaluations, police reports, probation reports, and court records directly to the Commission.

Note: If you answered “yes” to question 1, the licensing authority will assess the nature, severity, and the duration of the risks associated with the ongoing medical condition and the ongoing treatment to determine whether your license should be restricted, conditions imposed, or no license issued.

The licensing authority may require you to undergo one or more mental, physical or psychological examination(s). This would be at your own expense. By submitting this application, you give consent to such an examination(s). You also agree the examination report(s) may be provided to the licensing authority. You waive all claims based on confidentiality or privileged communication. If you do not submit to a required examination(s) or provide the report(s) to the licensing authority, your application may be denied.

Note: If you answered “yes” to question 1, the licensing authority will assess the nature, severity, and the duration of the risks associated with the ongoing medical condition and the ongoing treatment to determine whether your license should be restricted, conditions imposed, or no license issued.

2. Do you currently use chemical substance(s) in any way which impair or limit your ability to practice your profession with reasonable skill and safety? If yes, please explain.................................................................

“Currently” means within the past six months.

“Chemical substances” include alcohol, drugs, or medications, whether taken legally or illegally.

Note: If you answer “yes” to any of the remaining questions, provide an explanation and certified copies of all judgments, decisions, orders, agreements and surrenders. The department does criminal background checks on all applicants.

3. Have you ever been convicted, entered a plea of guilty, no contest, or a similar plea, or had prosecution or a sentence deferred or suspended as an adult in any state or jurisdiction? .................................................................

Note: If you answered “yes” to question 3, you must send certified copies of all court documents related to your criminal history with your application. If you do not provide the documents, your application is incomplete and will not be considered.

To protect the public, the department considers criminal history. A criminal history may not automatically bar you from obtaining a credential. However, failure to report criminal history may result in extra cost to you and the application may be delayed or denied.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. The legislature intends to modernize the practice of physician assistants in order to increase access to care, reduce barriers to employment of physician assistants, and optimize
the manner in which physician assistants deliver quality medical care.

The requirements shall include completion of an accredited physician assistant training program approved by the commission and within one year successfully take and pass an examination approved by the commission, if the examination tests subjects substantially equivalent to the curriculum of an accredited physician assistant training program. An interim permit may be granted by the department of health for one year provided the applicant meets all other requirements. Physician assistants licensed
by the board of medical examiners, or the commission as of July 1, 1999, shall continue to be licensed.

Supervision shall not be construed to necessarily require the personal presence of the supervising physician or physicians at the place where services are rendered.

(3) Applicants for licensure shall file an application with the commission on a form prepared by the secretary with the approval of the commission, detailing the education, training, and experience of the physician assistant and such other information as the commission may require. The application shall be accompanied by a fee determined by the secretary as provided in RCW 43.70.250 and 43.70.280. NEW SECTION. Sec. 6. A new section is added to chapter 18.71A RCW to read as follows:
(1) Prior to commencing practice, a physician assistant licensed in Washington state must enter into a practice agreement with a physician or group of physicians, at least one of whom must be working in a supervisory capacity.
(a) Entering into a practice agreement is voluntary for the physician assistant and the supervising physician. A physician may not be compelled to participate in a practice agreement as a condition of employment.
(b) Prior to entering into the practice agreement, the physician, physicians, or their designee must verify the physician assistant's credentials.
(c) The protections of RCW 43.70.075 apply to any physician who reports to the commission acts of retaliation or reprisal for declining to sign a practice agreement.
(d) The practice agreement must be maintained by the physician assistant's employer or at his or her place of work and must be made available to the commission upon request.
(e) The commission shall develop a model practice agreement.
(f) The commission shall establish administrative procedures, administrative requirements, and fees as provided in RCW 43.70.250 and 43.70.280.
(2) A practice agreement must include all of the following:

procedures or areas of practice. The practice agreement may only include acts, tasks, or functions that the physician assistant and supervising physician or alternate physicians are qualified to perform by education, training, or experience and that are within the scope of expertise and clinical practice of both the physician assistant and the supervising physician or alternate physicians, unless otherwise authorized by law, rule, or the commission;

(b) A process between the physician assistant and supervising physician or alternate physicians for communication, availability, and decision making when providing medical treatment to a patient or in the event of an acute health care crisis not previously covered by the practice agreement, such as a flu pandemic or other unforeseen emergency. (c) If there is only one physician party to the practice agreement, a protocol for designating an alternate physician for consultation in situations in which the physician is not available;

(d) The signature of the physician assistant and the signature or signatures of the supervising physician. A practice agreement may be signed electronically using a method for electronic signatures approved by the commission; and

(ii) The physician assistant or supervising physician may terminate the practice agreement immediately due to good faith concerns regarding unprofessional conduct or failure to practice medicine while exercising reasonable skill and safety.

(3) A practice agreement may be amended for any reason, such as to add or remove supervising physicians or alternate physicians or to amend the duties and responsibilities of the physician assistant.
Whenever a physician assistant is practicing in a manner inconsistent with the practice agreement, the commission may take disciplinary action under chapter 18.130 RCW.

Whenever a physician is subject to disciplinary action under chapter 18.130 RCW related to the practice of a physician assistant, the case must be referred to the appropriate disciplining authority.

A physician assistant or physician may participate in more than one practice agreement if he or she is reasonably able to fulfill the duties and responsibilities in each agreement.

A physician may supervise no more than ten physician assistants. A physician may petition the commission for a waiver of this limit. The commission shall automatically grant a waiver to any physician who possesses, on the effective date of this section, a valid waiver to supervise more than ten physician assistants. A physician granted a waiver under this subsection may not supervise more physician assistants than the physician is able to adequately supervise.

A physician assistant must file with the commission in a form acceptable to the commission:

(a) Each practice agreement into which the physician assistant enters under this section;

(b) Any amendments to the practice agreement; and

(c) Notice if the practice agreement is terminated.

Sec. 7. RCW 18.71A.050 and 1994 sp.s. c 9 s 323 are each amended to read as follows:

No physician who (supervises) enters into a practice agreement with a licensed physician assistant in accordance with and within the terms of any permission granted by the commission is considered as aiding and abetting an unlicensed person to practice medicine. The supervising physician and physician assistant shall each retain professional and personal responsibility for any act which constitutes the practice of medicine as defined in RCW 18.71.011 or the practice of osteopathic medicine and surgery as defined in RCW 18.57.001 when performed by the physician assistant.

Sec. 8. RCW 18.71A.090 and 2007 c 264 s 3 are each amended to read as follows:

(1) A physician assistant may sign and attest to any certificates, cards, forms, or other required documentation that the
physician assistant's supervising physician or physician group may sign, provided that it is within the physician assistant's scope of practice and is consistent with the terms of the physician assistant's practice (arrangement plan) agreement as required by this chapter.

(2) Notwithstanding any federal law, rule, or medical staff bylaw provision to the contrary, a physician is not required to countersign orders written in a patient's clinical record or an official form by a physician assistant with whom the physician has a practice agreement.

NEW SECTION. Sec. 9. A new section is added to chapter 18.71A RCW to read as follows:

(1) The commission shall conduct an education and outreach campaign to make license holders, health carriers, and the public aware of the provisions of this act.

(2) This section expires August 1, 2023.

NEW SECTION. Sec. 10. A new section is added to chapter 18.71A RCW to read as follows:

(1) On or after the effective date of this section, no new licenses may be issued under chapter 18.57A RCW. The commission shall license physician assistants licensed under chapter 18.57A RCW prior to the effective date of this section as physician assistants under this chapter when they renew their licenses.

(2) The board of osteopathic medicine and surgery remains the disciplining authority under chapter 18.130 RCW for conduct occurring while a physician assistant is licensed under chapter 18.57A RCW.

NEW SECTION. Sec. 11. A new section is added to chapter 18.71A RCW to read as follows:

The commission and the board of osteopathic medicine and surgery shall adopt any rules necessary to implement this act.

Sec. 12. RCW 7.68.030 and 2017 c 235 s 2 are each amended to read as follows:

(1) It shall be the duty of the director to establish and administer a program of benefits to innocent victims of criminal acts within the terms and limitations of this chapter. The director may apply for and, subject to appropriation, expend federal funds under
Public Law 98-473 and any other federal program providing financial assistance to state crime victim compensation programs. The federal funds shall be deposited in the state general fund and may be expended only for purposes authorized by applicable federal law.

(2) The director shall:

(a) Establish and adopt rules governing the administration of this chapter in accordance with chapter 34.05 RCW;

(b) Regulate the proof of accident and extent thereof, the proof of death, and the proof of relationship and the extent of dependency;

(c) Supervise the medical, surgical, and hospital treatment to the intent that it may be in all cases efficient and up to the recognized standard of modern surgery;

(d) Issue proper receipts for moneys received and certificates for benefits accrued or accruing;

(e) Designate a medical director who is licensed under chapter 18.57 or 18.71 RCW;

(f) Supervise the providing of prompt and efficient care and treatment, including care provided by physician assistants governed by the provisions of ((chapters 18.57A and)) chapter 18.71A RCW, acting under a supervising physician, including chiropractic care, and including care provided by licensed advanced registered nurse practitioners, to victims at the least cost consistent with promptness and efficiency, without discrimination or favoritism, and with as great uniformity as the various and diverse surrounding circumstances and locations of industries will permit and to that end shall, from time to time, establish and adopt and supervise the administration of printed forms, electronic communications, rules, regulations, and practices for the furnishing of such care and treatment. The medical coverage decisions of the department do not constitute a "rule" as used in RCW 34.05.010(16), nor are such decisions subject to the rule-making provisions of chapter 34.05 RCW except that criteria for establishing medical coverage decisions shall be adopted by rule. The department may recommend to a victim particular health care services and providers where specialized treatment is indicated or where cost-effective payment levels or rates are obtained by the department, and the department may enter into contracts for goods and services including, but not limited to, durable medical equipment so long as statewide access to quality service is maintained for injured victims;
(g) In consultation with interested persons, establish and, in his or her discretion, periodically change as may be necessary, and make available a fee schedule of the maximum charges to be made by any physician, surgeon, chiropractor, hospital, druggist, licensed advanced registered nurse practitioner, and physician assistants as defined in ((chapters 18.57A and)) chapter 18.71A RCW, acting under a supervising physician or other agency or person rendering services to victims. The department shall coordinate with other state purchasers of health care services to establish as much consistency and uniformity in billing and coding practices as possible, taking into account the unique requirements and differences between programs. No service covered under this title, including services provided to victims, whether aliens or other victims, who are not residing in the United States at the time of receiving the services, shall be charged or paid at a rate or rates exceeding those specified in such fee schedule, and no contract providing for greater fees shall be valid as to the excess. The establishment of such a schedule, exclusive of conversion factors, does not constitute "agency action" as used in RCW 34.05.010(3), nor does such a fee schedule constitute a "rule" as used in RCW 34.05.010(16). Payments for providers' services under the fee schedule established pursuant to this subsection (2) may not be less than payments provided for comparable services under the workers' compensation program under Title 51 RCW, provided:

(i) If the department, using caseload estimates, projects a deficit in funding for the program by July 15th for the following fiscal year, the director shall notify the governor and the appropriate committees of the legislature and request funding sufficient to continue payments to not less than payments provided for comparable services under the workers' compensation program. If sufficient funding is not provided to continue payments to not less than payments provided for comparable services under the workers' compensation program, the director shall reduce the payments under the fee schedule for the following fiscal year based on caseload estimates and available funding, except payments may not be reduced to less than seventy percent of payments for comparable services under the workers' compensation program;

(ii) If an unforeseeable catastrophic event results in insufficient funding to continue payments to not less than payments provided for comparable services under the workers' compensation program, the director shall reduce the payments under the fee schedule.
schedule to not less than seventy percent of payments provided for comparable services under the workers' compensation program, provided that the reduction may not be more than necessary to fund benefits under the program; and

(iii) Once sufficient funding is provided or otherwise available, the director shall increase the payments under the fee schedule to not less than payments provided for comparable services under the workers' compensation program;

(h) Make a record of the commencement of every disability and the termination thereof and, when bills are rendered for the care and treatment of injured victims, shall approve and pay those which conform to the adopted rules, regulations, established fee schedules, and practices of the director and may reject any bill or item thereof incurred in violation of the principles laid down in this section or the rules, regulations, or the established fee schedules and rules and regulations adopted under it.

(3) The director and his or her authorized assistants:

(a) Have power to issue subpoenas to enforce the attendance and testimony of witnesses and the production and examination of books, papers, photographs, tapes, and records before the department in connection with any claim made to the department or any billing submitted to the department. The superior court has the power to enforce any such subpoena by proper proceedings;

(b)(i) May apply for and obtain a superior court order approving and authorizing a subpoena in advance of its issuance. The application may be made in the county where the subpoenaed person resides or is found, or the county where the subpoenaed records or documents are located, or in Thurston county. The application must (A) state that an order is sought pursuant to this subsection; (B) adequately specify the records, documents, or testimony; and (C) declare under oath that an investigation is being conducted for a lawfully authorized purpose related to an investigation within the department's authority and that the subpoenaed documents or testimony are reasonably related to an investigation within the department's authority.

(ii) Where the application under this subsection (3)(b) is made to the satisfaction of the court, the court must issue an order approving the subpoena. An order under this subsection constitutes authority of law for the agency to subpoena the records or testimony.
(iii) The director and his or her authorized assistants may seek approval and a court may issue an order under this subsection without prior notice to any person, including the person to whom the subpoena is directed and the person who is the subject of an investigation.

(4) In all hearings, actions, or proceedings before the department, any physician or licensed advanced registered nurse practitioner having theretofore examined or treated the claimant may be required to testify fully regarding such examination or treatment, and shall not be exempt from so testifying by reason of the relation of the physician or licensed advanced registered nurse practitioner to the patient.

Sec. 13. RCW 18.06.140 and 2019 c 308 s 9 are each amended to read as follows:

(1) When a person licensed under this chapter sees patients with potentially serious disorders such as cardiac conditions, acute abdominal symptoms, and such other conditions, the practitioner shall immediately request a consultation or recent written diagnosis from a primary health care provider licensed under chapter 18.71, 18.57, (18.57A, 18.36A, or 18.71A RCW or RCW 18.79.050. In the event that the patient with the disorder refuses to authorize such consultation or provide a recent diagnosis from such primary health care provider, acupuncture or Eastern medicine treatments may only be continued after the patient signs a written waiver acknowledging the risks associated with the failure to pursue treatment from a primary health care provider. The waiver must also include: (a) An explanation of an acupuncturist's or acupuncture and Eastern medicine practitioner's scope of practice, including the services and techniques acupuncturists or acupuncture and Eastern medicine practitioners are authorized to provide and (b) a statement that the services and techniques that an acupuncturist or acupuncture and Eastern medicine practitioner is authorized to provide will not resolve the patient's underlying potentially serious disorder. The requirements of the waiver shall be established by the secretary in rule.

(2) In an emergency, a person licensed under this chapter shall: (a) Initiate the emergency medical system by calling 911; (b) request an ambulance; and (c) provide patient support until emergency response arrives.

(3) A person violating this section is guilty of a misdemeanor.

Sec. 18. RCW 18.79.260 and 2012 c 164 s 407, 2012 c 13 s 3, and
2012 c 10 s 37 are each reenacted and amended to read as follows:
(1) A registered nurse under his or her license may perform for
compensation nursing care, as that term is usually understood, to
individuals with illnesses, injuries, or disabilities.
(2) A registered nurse may, at or under the general direction of
a licensed physician and surgeon, dentist, osteopathic physician and
surgeon, naturopathic physician, optometrist, podiatric physician and
surgeon, physician assistant, ((osteopathic physician assistant))
advanced registered nurse practitioner, or midwife acting within the
scope of his or her license, administer medications, treatments,
tests, and inoculations, whether or not the severing or penetrating
of tissues is involved and whether or not a degree of independent
judgment and skill is required. Such direction must be for acts which
are within the scope of registered nursing practice.
(3) A registered nurse may delegate tasks of nursing care to
other individuals where the registered nurse determines that it is in
the best interest of the patient.
(a) The delegating nurse shall:
(i) Determine the competency of the individual to perform the
tasks;
(ii) Evaluate the appropriateness of the delegation;
(iii) Supervise the actions of the person performing the
delegated task; and
(iv) Delegate only those tasks that are within the registered
nurse's scope of practice.
(b) A registered nurse, working for a home health or hospice
agency regulated under chapter 70.127 RCW, may delegate the
application, instillation, or insertion of medications to a
registered or certified nursing assistant under a plan of care.
(c) Except as authorized in (b) or (e) of this subsection, a
registered nurse may not delegate the administration of medications.
Except as authorized in (e) of this subsection, a registered nurse
may not delegate acts requiring substantial skill, and may not
delegate piercing or severing of tissues. Acts that require nursing
judgment shall not be delegated.
(d) No person may coerce a nurse into compromising patient safety by requiring the nurse to delegate if the nurse determines that it is inappropriate to do so. Nurses shall not be subject to any employer reprisal or disciplinary action by the nursing care quality assurance commission for refusing to delegate tasks or refusing to provide the required training for delegation if the nurse determines delegation may compromise patient safety.

(e) For delegation in community-based care settings or in-home care settings, a registered nurse may delegate nursing care tasks only to registered or certified nursing assistants or home care aides certified under chapter 18.88B RCW. Simple care tasks such as blood pressure monitoring, personal care service, diabetic insulin device set up, verbal verification of insulin dosage for sight-impaired individuals, or other tasks as defined by the nursing care quality assurance commission are exempted from this requirement.

(i) "Community-based care settings" includes: Community residential programs for people with developmental disabilities, certified by the department of social and health services under chapter 71A.12 RCW; adult family homes licensed under chapter 70.128 RCW; and assisted living facilities licensed under chapter 18.20 RCW. Community-based care settings do not include acute care or skilled nursing facilities.

(ii) "In-home care settings" include an individual's place of temporary or permanent residence, but does not include acute care or skilled nursing facilities, and does not include community-based care settings as defined in (e)(i) of this subsection.

(iii) Delegation of nursing care tasks in community-based care settings and in-home care settings is only allowed for individuals who have a stable and predictable condition. "Stable and predictable condition" means a situation in which the individual's clinical and behavioral status is known and does not require the frequent presence and evaluation of a registered nurse.

(iv) The determination of the appropriateness of delegation of a nursing task is at the discretion of the registered nurse. Other than delegation of the administration of insulin by injection for the purpose of caring for individuals with diabetes, the administration of medications by injection, sterile procedures, and central line maintenance may never be delegated.

(v) When delegating insulin injections under this section, the registered nurse delegator must instruct the individual regarding
proper injection procedures and the use of insulin, demonstrate proper injection procedures, and must supervise and evaluate the individual performing the delegated task weekly during the first four weeks of delegation of insulin injections. If the registered nurse delegator determines that the individual is competent to perform the injection properly and safely, supervision and evaluation shall occur at least every ninety days thereafter.

(vi) (A) The registered nurse shall verify that the nursing assistant or home care aide, as the case may be, has completed the required core nurse delegation training required in chapter 18.88A or 18.88B RCW prior to authorizing delegation.

(B) Before commencing any specific nursing tasks authorized to be delegated in this section, a home care aide must be certified pursuant to chapter 18.88B RCW and must comply with RCW 18.88B.070.

(vii) The nurse is accountable for his or her own individual actions in the delegation process. Nurses acting within the protocols of their delegation authority are immune from liability for any action performed in the course of their delegation duties.

(viii) Nursing task delegation protocols are not intended to regulate the settings in which delegation may occur, but are intended to ensure that nursing care services have a consistent standard of practice upon which the public and the profession may rely, and to safeguard the authority of the nurse to make independent professional decisions regarding the delegation of a task.

(f) The nursing care quality assurance commission may adopt rules to implement this section.

(4) Only a person licensed as a registered nurse may instruct nurses in technical subjects pertaining to nursing.

(5) Only a person licensed as a registered nurse may hold herself or himself out to the public or designate herself or himself as a registered nurse.

scope of his or her license, or at the direction and under the
supervision of a registered nurse, administer drugs, medications,
treatments, tests, injections, and inoculations, whether or not the
piercing of tissues is involved and whether or not a degree of
independent judgment and skill is required, when selected to do so by
one of the licensed practitioners designated in this section, or by a

Sec. 33. RCW 46.61.506 and 2017 c 336 s 7 are each amended to read as follows:

(1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of intoxicating liquor or any drug, if the person's alcohol concentration is less than 0.08 or the person's THC concentration is less than 5.00, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or any drug.

(2)(a) The breath analysis of the person's alcohol concentration shall be based upon grams of alcohol per two hundred ten liters of breath.

(b) The blood analysis of the person's THC concentration shall be based upon nanograms per milliliter of whole blood.

(c) The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under the provisions of this section or RCW 46.61.502 or 46.61.504 shall have been performed according to methods approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist is directed to approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits which shall be subject to termination or revocation at the discretion of the state toxicologist.

(4)(a) A breath test performed by any instrument approved by the state toxicologist shall be admissible at trial or in an
administrative proceeding if the prosecution or department produces prima facie evidence of the following:

(i) The person who performed the test was authorized to perform such test by the state toxicologist;

(ii) The person being tested did not vomit or have anything to eat, drink, or smoke for at least fifteen minutes prior to administration of the test;

(iii) The person being tested did not have any foreign substances, not to include dental work or piercings, fixed or removable, in his or her mouth at the beginning of the fifteen-minute observation period;

(iv) Prior to the start of the test, the temperature of any liquid simulator solution utilized as an external standard, as measured by a thermometer approved of by the state toxicologist was thirty-four degrees centigrade plus or minus 0.3 degrees centigrade;

(v) The internal standard test resulted in the message "verified";

(vi) The two breath samples agree to within plus or minus ten percent of their mean to be determined by the method approved by the state toxicologist;

(vii) The result of the test of the liquid simulator solution external standard or dry gas external standard result did lie between .072 to .088 inclusive; and

(viii) All blank tests gave results of .000.

(b) For purposes of this section, "prima facie evidence" is evidence of sufficient circumstances that would support a logical and reasonable inference of the facts sought to be proved. In assessing whether there is sufficient evidence of the foundational facts, the court or administrative tribunal is to assume the truth of the prosecution's or department's evidence and all reasonable inferences from it in a light most favorable to the prosecution or department.

(c) Nothing in this section shall be deemed to prevent the subject of the test from challenging the reliability or accuracy of the test, the reliability or functioning of the instrument, or any maintenance procedures. Such challenges, however, shall not preclude the admissibility of the test once the prosecution or department has made a prima facie showing of the requirements contained in (a) of this subsection. Instead, such challenges may be considered by the trier of fact in determining what weight to give to the test result.
(5) When a blood test is administered under the provisions of RCW 46.20.308, the withdrawal of blood for the purpose of determining its alcohol or drug content may be performed only by a physician licensed under chapter 18.71 RCW; an osteopathic physician licensed under chapter 18.57 RCW; a registered nurse, licensed practical nurse, or advanced registered nurse practitioner licensed under chapter 18.79 RCW; a physician assistant licensed under chapter 18.71A RCW; (an osteopathic physician assistant licensed under chapter 18.57A RCW); an advanced emergency medical technician or paramedic certified under chapter 18.71 RCW; or a medical assistant-certified or medical assistant-phlebotomist certified under chapter 18.360 RCW, a person holding another credential under Title 18 RCW whose scope of practice includes performing venous blood draws, or a forensic phlebotomist certified under chapter 18.360 RCW. When the blood test is performed outside the state of Washington, the withdrawal of blood for the purpose of determining its alcohol or drug content may be performed by any person who is authorized by the out-of-state jurisdiction to perform venous blood draws. Proof of qualification to draw blood may be established through the department of health's provider credential search. This limitation shall not apply to the taking of breath specimens.

(6) When a venous blood sample is performed by a forensic phlebotomist certified under chapter 18.360 RCW, it must be done under the following conditions:

(a) If taken at the scene, it must be performed in an ambulance or aid service vehicle licensed by the department of health under chapter 18.73 RCW.

(b) The collection of blood samples must not interfere with the provision of essential medical care.

(c) The blood sample must be collected using sterile equipment and the skin area of puncture must be thoroughly cleansed and disinfected.

(d) The person whose blood is collected must be seated, reclined, or lying down when the blood is collected.

(7) The person tested may have a licensed or certified health care provider listed in subsection (5) of this section, or a qualified technician, chemist, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The test will be admissible if the person establishes the general
acceptability of the testing technique or method. The failure or
inability to obtain an additional test by a person shall not preclude
the admission of evidence relating to the test or tests taken at the
direction of a law enforcement officer.

(8) Upon the request of the person who shall submit to a test or
tests at the request of a law enforcement officer, full information
concerning the test or tests shall be made available to him or her or
his or her attorney.

18.360 RCW, person holding another credential under Title 18 RCW
whose scope of practice includes performing venous blood draws, or
forensic phlebotomist certified under chapter 18.360 RCW, or

incur any civil or criminal liability as a result of the act of
withdrawing blood from any person when directed by a law enforcement
officer to do so for the purpose of a blood test under the provisions
of a search warrant, a waiver of the search warrant requirement,
existent circumstances, or any other authority of law: PROVIDED, That
nothing in this section shall relieve such licensed or certified

(4) Health care carriers shall ensure that enrolled female patients have direct access to timely and appropriate covered women's health care services from the type of health care practitioner of their choice in accordance with subsection (5) of this section.

(5)(a) Health care carrier policies, plans, and programs written, amended, or renewed after July 23, 1995, shall provide women patients with direct access to the type of health care practitioner of their choice for appropriate covered women's health care services without the necessity of prior referral from another type of health care practitioner.

(b) Health care carriers may comply with this section by including all the types of health care practitioners listed in this section for women's health care services for women patients.

(c) Nothing in this section shall prevent health care carriers from restricting women patients to seeing only health care practitioners who have signed participating provider agreements with the health care carrier.

**Sec. 36.** RCW 48.43.094 and 2015 c 237 s 1 are each amended to read as follows:
(1) For health plans issued or renewed on or after January 1, 2017:

(a) Benefits shall not be denied for any health care service performed by a pharmacist licensed under chapter 18.64 RCW if:

(i) The service performed was within the lawful scope of such person's license;

(ii) The plan would have provided benefits if the service had been performed by a physician licensed under chapter 18.71 or 18.57 RCW, an advanced registered nurse practitioner licensed under chapter 18.79 RCW, or a physician's assistant licensed under chapter 18.71A ((or 18.57A)) RCW; and

(iii) The pharmacist is included in the plan's network of participating providers; and

(b) The health plan must include an adequate number of pharmacists in its network of participating medical providers.

(2) The participation of pharmacies in the plan network's drug benefit does not satisfy the requirement that plans include pharmacists in their networks of participating medical providers.

(3) For health benefit plans issued or renewed on or after January 1, 2016, but before January 1, 2017, health plans that delegate credentialing agreements to contracted health care facilities must accept credentialing for pharmacists employed or contracted by those facilities. Health plans must reimburse facilities for covered services provided by network pharmacists within the pharmacists' scope of practice per negotiations with the facility.

(4) This section does not supersede the requirements of RCW 48.43.045.

Sec. 37. RCW 48.43.115 and 2003 c 248 s 14 are each amended to read as follows:

(1) The legislature recognizes the role of health care providers as the appropriate authority to determine and establish the delivery of quality health care services to maternity patients and their newly born children. It is the intent of the legislature to recognize patient preference and the clinical sovereignty of providers as they make determinations regarding services provided and the length of time individual patients may need to remain in a health care facility after giving birth. It is not the intent of the legislature to diminish a carrier's ability to utilize managed care strategies but...
to ensure the clinical judgment of the provider is not undermined by restrictive carrier contracts or utilization review criteria that fail to recognize individual postpartum needs.

(2) Unless otherwise specifically provided, the following definitions apply throughout this section:

(a) "Attending provider" means a provider who: Has clinical hospital privileges consistent with RCW 70.43.020; is included in a provider network of the carrier that is providing coverage; and is a physician licensed under chapter 18.57 or 18.71 RCW, a certified nurse midwife licensed under chapter 18.79 RCW, a midwife licensed under chapter 18.50 RCW, a physician's assistant licensed under chapter (18.57A or 18.71A RCW, or an advanced registered nurse practitioner licensed under chapter 18.79 RCW.

(b) "Health carrier" or "carrier" means disability insurers regulated under chapter 48.20 or 48.21 RCW, health care services contractors regulated under chapter 48.44 RCW, health maintenance organizations regulated under chapter 48.46 RCW, plans operating under the health care authority under chapter 41.05 RCW, the state health insurance pool operating under chapter 48.41 RCW, and insuring entities regulated under this chapter.

(3)(a) Every health carrier that provides coverage for maternity services must permit the attending provider, in consultation with the mother, to make decisions on the length of inpatient stay, rather than making such decisions through contracts or agreements between providers, hospitals, and insurers. These decisions must be based on accepted medical practice.

(b) Covered eligible services may not be denied for inpatient, postdelivery care to a mother and her newly born child after a vaginal delivery or a cesarean section delivery for such care as ordered by the attending provider in consultation with the mother.

(c) At the time of discharge, determination of the type and location of follow-up care must be made by the attending provider in consultation with the mother rather than by contract or agreement between the hospital and the insurer. These decisions must be based on accepted medical practice.

(d) Covered eligible services may not be denied for follow-up care, including in-person care, as ordered by the attending provider in consultation with the mother. Coverage for providers of follow-up services must include, but need not be limited to, attending providers as defined in this section, home health agencies licensed...
under chapter 70.127 RCW, and registered nurses licensed under chapter 18.79 RCW.

(e) This section does not require attending providers to authorize care they believe to be medically unnecessary.

(f) Coverage for the newly born child must be no less than the coverage of the child's mother for no less than three weeks, even if there are separate hospital admissions.

(4) A carrier that provides coverage for maternity services may not deselect, terminate the services of, require additional documentation from, require additional utilization review of, reduce payments to, or otherwise provide financial disincentives to any attending provider or health care facility solely as a result of the attending provider or health care facility ordering care consistent with this section. This section does not prevent any insurer from reimbursing an attending provider or health care facility on a capitated, case rate, or other financial incentive basis.

(5) Every carrier that provides coverage for maternity services must provide notice to policyholders regarding the coverage required under this section. The notice must be in writing and must be transmitted at the earliest of the next mailing to the policyholder, the yearly summary of benefits sent to the policyholder, or January 1 of the year following June 6, 1996.

(6) This section does not establish a standard of medical care.

(7) This section applies to coverage for maternity services under a contract issued or renewed by a health carrier after June 6, 1996, and applies to plans operating under the health care authority under chapter 41.05 RCW beginning January 1, 1998.

Sec. 38. RCW 51.04.030 and 2011 c 290 s 1 are each amended to read as follows:

(1) The director shall supervise the providing of prompt and efficient care and treatment, including care provided by physician assistants governed by the provisions of chapter 18.57A RCW, acting under a supervising physician, including chiropractic care, and including care provided by licensed advanced registered nurse practitioners, to workers injured during the course of their employment at the least cost consistent with promptness and efficiency, without discrimination or favoritism, and with as great uniformity as the various and diverse surrounding circumstances and locations of industries will permit and to that end shall, from time
to time, establish and adopt and supervise the administration of printed forms, rules, regulations, and practices for the furnishing of such care and treatment: PROVIDED, That the medical coverage decisions of the department do not constitute a "rule" as used in RCW 34.05.010(16), nor are such decisions subject to the rule-making provisions of chapter 34.05 RCW except that criteria for establishing medical coverage decisions shall be adopted by rule after consultation with the workers' compensation advisory committee established in RCW 51.04.110: PROVIDED FURTHER, That the department may recommend to an injured worker particular health care services and providers where specialized treatment is indicated or where cost-effective payment levels or rates are obtained by the department: AND PROVIDED FURTHER, That the department may enter into contracts for goods and services including, but not limited to, durable medical equipment so long as statewide access to quality service is maintained for injured workers. 

(2) The director shall, in consultation with interested persons, establish and, in his or her discretion, periodically change as may be necessary, and make available a fee schedule of the maximum charges to be made by any physician, surgeon, chiropractor, hospital, druggist, licensed advanced registered nurse practitioner, physicians' assistants as defined in (chapters 18.57A and) chapter 18.71A RCW, acting under a supervising physician or other agency or person rendering services to injured workers. The department shall coordinate with other state purchasers of health care services to establish as much consistency and uniformity in billing and coding practices as possible, taking into account the unique requirements and differences between programs. No service covered under this title, including services provided to injured workers, whether aliens or other injured workers, who are not residing in the United States at the time of receiving the services, shall be charged or paid at a rate or rates exceeding those specified in such fee schedule, and no contract providing for greater fees shall be valid as to the excess. The establishment of such a schedule, exclusive of conversion factors, does not constitute "agency action" as used in RCW 34.05.010(3), nor does such a fee schedule and its associated billing or payment instructions and policies constitute a "rule" as used in RCW 34.05.010(16).

(3) The director or self-insurer, as the case may be, shall make a record of the commencement of every disability and the termination
thereof and, when bills are rendered for the care and treatment of injured workers, shall approve and pay those which conform to the adopted rules, regulations, established fee schedules, and practices of the director and may reject any bill or item thereof incurred in violation of the principles laid down in this section or the rules, regulations, or the established fee schedules and rules and regulations adopted under it.

Sec. 39. RCW 51.28.100 and 2007 c 263 s 1 are each amended to read as follows:

The department shall accept the signature of a physician assistant on any certificate, card, form, or other documentation required by the department that the physician assistant's supervising physician or physicians may sign, provided that it is within the physician assistant's scope of practice, and is consistent with the terms of the physician assistant's practice ((arrangement plan)) agreement as required by ((chapters 18.57A and 18.71A)) chapter 18.71A RCW. Consistent with the terms of this section, the authority of a physician assistant to sign such certificates, cards, forms, or other documentation includes, but is not limited to, the execution of the certificate required in RCW 51.28.020. A physician assistant may not rate a worker's permanent partial disability under RCW 51.32.055.

(c) The term also means every sale of tangible personal property to persons engaged in any business that is taxable under RCW 82.04.280(1) (a), (b), and (g), 82.04.290, and 82.04.2908.

(1) of this section and nothing contained in subsection (1) of this
section may be construed to modify this subsection.

(3) The term "sale at retail" or "retail sale" includes the sale

fitness facility where such use is primarily for a purpose other than
engaging in or receiving instruction in a physical fitness activity;

of an athletic or fitness facility, other than a pool, where such
discrete portion of the facility does not by itself meet the
definition of "athletic or fitness facility" in this subsection;

(C) Separately stated charges for services, such as advertising,
massage, nutritional consulting, and body composition testing, that
do not require the customer to engage in physical fitness activities
to receive the service. The exclusion in this subsection (3)(g)(ii)(C) does not apply to personal training services and instruction in a physical fitness activity;

(iv) For the purposes of this subsection (3)(g), the following definitions apply:

(A) "Athletic or fitness facility" means an indoor or outdoor facility or portion of a facility that is primarily used for: Exercise classes; strength and conditioning programs; personal training services; tennis, racquetball, handball, squash, or pickleball; or other activities requiring the use of exercise or strength training equipment, such as treadmills, elliptical machines, stair climbers, stationary cycles, rowing machines, pilates equipment, balls, climbing ropes, jump ropes, and weightlifting equipment.

(6)(a) The term also includes the sale of prewritten computer software to a consumer, regardless of the method of delivery to the end user. For purposes of (a) and (b) of this subsection, the sale of prewritten computer software includes the sale of or charge made for a key or an enabling or activation code, where the key or code is required to activate prewritten computer software and put the software into use. There is no separate sale of the key or code from the prewritten computer software, regardless of how the sale may be characterized by the vendor or by the purchaser.

(b) The term "retail sale" does not include the sale of or charge made for:
(i) Custom software; or

(ii) The customization of prewritten computer software.

(c)(i) The term also includes the charge made to consumers for the right to access and use prewritten computer software, where possession of the software is maintained by the seller or a third party, regardless of whether the charge for the service is on a per use, per user, per license, subscription, or some other basis.

(ii)(A) The service described in (c)(i) of this subsection (6) includes the right to access and use prewritten computer software to perform data processing.

(B) For purposes of this subsection (6)(c)(ii), "data processing" means the systematic performance of operations on data to extract the required information in an appropriate form or to convert the data to usable information. Data processing includes check processing, image processing, form processing, survey processing, payroll processing, claim processing, and similar activities.

(7) The term also includes the sale of or charge made for an extended warranty to a consumer. For purposes of this subsection, "extended warranty" means an agreement for a specified duration to perform the replacement or repair of tangible personal property at no additional charge or a reduced charge for tangible personal property, labor, or both, or to provide indemnification for the replacement or repair of tangible personal property, based on the occurrence of specified events. The term "extended warranty" does not include an agreement, otherwise meeting the definition of extended warranty in this subsection, if no separate charge is made for the agreement and the value of the agreement is included in the sales price of the tangible personal property covered by the agreement. For purposes of this subsection, "sales price" has the same meaning as in RCW 82.08.010.

(8)(a) The term also includes the following sales to consumers of digital goods, digital codes, and digital automated services:

(i) Sales in which the seller has granted the purchaser the right of permanent use;

(c) For purposes of this subsection, "permanent" means perpetual or for an indefinite or unspecified length of time. A right of permanent use is presumed to have been granted unless the agreement between the seller and the purchaser specifies or the circumstances surrounding the transaction suggest or indicate that the right to use terminates on the occurrence of a condition subsequent.

(9) The term also includes the charge made for providing tangible personal property along with an operator for a fixed or indeterminate period of time. A consideration of this is that the operator is necessary for the tangible personal property to perform as designed. For the purpose of this subsection (9), an operator must do more than maintain, inspect, or set up the tangible personal property.

(10) The term does not include the sale of or charge made for labor and services rendered in respect to the building, repairing, or improving of any street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle which is owned by a municipal corporation or political subdivision of the state or by the United States and which is used or to be used primarily for foot or vehicular traffic including mass transportation vehicles of any kind.

Sec. 501(c)(3) of the federal internal revenue code or the Washington
state department of fish and wildlife to produce or improve wildlife
habitat on land that the farmer owns or leases.

(12) The term does not include the sale of or charge made for
labor and services rendered in respect to the constructing,
repairing, decorating, or improving of new or existing buildings or
other structures under, upon, or above real property of or for the
United States, any instrumentality thereof, or a county or city
housing authority created pursuant to chapter 35.82 RCW, including
the installing, or attaching of any article of tangible personal
property therein or thereto, whether or not such personal property
becomes a part of the realty by virtue of installation. Nor does the
term include the sale of services or charges made for the clearing of
land and the moving of earth of or for the United States, any
instrumentality thereof, or a county or city housing authority. Nor
does the term include the sale of services or charges made for
cleaning up for the United States, or its instrumentalities,
radioactive waste and other by-products of weapons production and
nuclear research and development.

(13) The term does not include the sale of or charge made for
labor, services, or tangible personal property pursuant to agreements
providing maintenance services for bus, rail, or rail fixed guideway
equipment when a regional transit authority is the recipient of the
labor, services, or tangible personal property, and a transit agency,
as defined in RCW 81.104.015, performs the labor or services.

(14) The term does not include the sale for resale of any service
described in this section if the sale would otherwise constitute a
"sale at retail" and "retail sale" under this section.

(15)(a) The term "sale at retail" or "retail sale" includes
amounts charged, however labeled, to consumers to engage in any of
the activities listed in this subsection (15)(a), including the

provided in this subsection, providing instruction in such
activities, where such charges are not otherwise defined as a "sale
at retail" or "retail sale" in this section:

(i)(A) Golf, including any variant in which either golf balls or
golf clubs are used, such as miniature golf, hitting golf balls at a
driving range, and golf simulators, and including fees charged by a
golf course to a player for using his or her own cart. However,
charges for golf instruction are not a retail sale, provided that if
the instruction involves the use of a golfing facility that would
otherwise require the payment of a fee, such as green fees or driving range fees, such fees, including the applicable retail sales tax, must be separately identified and charged by the golfing facility operator to the instructor or the person receiving the instruction.

(B) Notwithstanding (a)(i)(A) of this subsection (15) and except as otherwise provided in this subsection (15)(a)(i)(B), the term "sale at retail" or "retail sale" does not include amounts charged to participate in, or conduct, a golf tournament or other competitive event. However, amounts paid by event participants to the golf facility operator are retail sales under this subsection (15)(a)(i). Likewise, amounts paid by the event organizer to the golf facility are retail sales under this subsection (15)(a)(i), if such amounts vary based on the number of event participants;

Discrete charges for rides or other attractions or entertainment that are in addition to the charge for admission are not a retail sale under this subsection (15)(a)(iv). For the purposes of this subsection, an amusement park or theme park is a location that provides permanently affixed amusement rides, games, and other entertainment, but does not include parks or zoos for which the primary purpose is the exhibition of wildlife, or fairs, carnivals, and festivals as defined in (b)(i) of this subsection;

(v) Batting cage activities;

(vi) Bowling, but not including competitive events, except that amounts paid by the event participants to the bowling alley operator are retail sales under this subsection (15)(a)(vi). (vii) Climbing on artificial climbing structures, whether indoors or outdoors;

(viii) Day trips for sightseeing purposes;

(ix) Bungee jumping, zip lining, and riding inside a ball, whether inflatable or otherwise;

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

Sec. 1. RCW 70.24.015 and 1988 c 206 s 901 are each amended to
read as follows:

The legislature declares that sexually transmitted diseases and
blood-borne pathogens constitute a serious and sometimes fatal threat
to the public and individual health and welfare of the people of the
state. The legislature finds that the incidence of sexually
transmitted diseases and blood-borne pathogens is rising at an
alarming rate and that these diseases result in significant social,
health, and economic costs, including infant and maternal mortality,
temporary and lifelong disability, and premature death. The
legislature further finds that sexually transmitted diseases and
blood-borne pathogens, by their nature, involve sensitive issues of privacy, and it is the intent of the legislature that all programs designed to deal with these diseases afford patients privacy, confidentiality, and dignity. The legislature also finds that medical knowledge and information about sexually transmitted diseases and blood-borne pathogens are rapidly changing. It is therefore the intent of the legislature to provide a program that is sufficiently flexible to meet emerging needs, deals efficiently and effectively with reducing the incidence of sexually transmitted diseases and blood-borne pathogens, and provides patients with a secure knowledge that information they provide will remain private and confidential.

her respective jurisdiction knows or has reason to believe, because
of direct medical knowledge or reliable testimony of others in a
position to have direct knowledge of a person's behavior, that a
person has a sexually transmitted disease and is engaging in
specified conduct, as determined by the board by rule based upon
generally accepted standards of medical and public health science,

Updated: 5/6/2020
Staff Reports: May 2020

Melanie de Leon, Executive Director

Staff continues to work from home as we have since March 23rd. Most of our processes are electronic enabling us to do this without too much disruption. For those processes requiring staff to go into the office, they do so sparingly, stay for a short time to pick up mail or hardcopy licensing applications and leave. During their time in the building, they are adhering to the social distancing requirements.

To stay connected to staff, virtual team meetings occur regularly, supervisors touch base with their staff and we meet virtually for socializing...we had a virtual lunch together last week. I have also had a virtual coffee break with the Pharmacy Commission’s ED to touch base with what they are doing.

The FSMB held its annual House of Delegates meeting – Dr. Roberts was our delegate and he attended virtually. In February, I was selected by FSMB to be a Staff Fellow on the FSMB Board of Directors for the next 2 years. I was also asked by the new Chair, Dr. Cheryl Walker-McGill to chair **FSMB’s Workgroup on Board Action Content Evaluation (BACE)** for a one-year term from May 2020-April 2021. The charge of the BACE workgroup is as follows:

- Identify recommended standards to ensure that board orders contain adequate information to identify the actions and reasons for discipline, including examples on how to write narratives of complaint and action that can be shared with state attorneys general, board attorneys, and related organizations;
- Support pilot projects to study best practices for collection and analysis of complaint data and relation to official board orders; and
- Provide recommendations to automate complaint collection and analysis process.

I will keep you informed of what that workgroup is doing as I get more involved.

We are hoping to start transitioning back to the office in June-July. That time is dependent on many factors to insure we all stay healthy. Again, you will be kept informed as we know more. Thank you for your patience and nimbleness throughout these past months as we changed the way we live and work to stay healthy and safe.

Micah Matthews, Deputy Executive Director

**Recurring:** Please submit all Payroll and Travel Reimbursements within 30 days of the time worked or travelled to allow for processing. Per Agency policy, requests submitted after the cutoff cannot be paid out.

**Legislation**

- There will likely be a special session called during 2020 to reduce/trim budget expenditures. There will likely be across the board cuts requested. So far, WMC does not appear to be directly implicated in those requests.
Micah Matthews, Deputy Executive Director, con’t

- For the 2021 session, we are soliciting ideas for WMC requests. Items under consideration are some form of emergency powers for licensing and rule issues during states of emergency. If you have thoughts on request legislation, please email me: Micah.Matthews@wmc.wa.gov

Budget

- The technical problem with our AGO budget request was resolved and we have had the $400,000 allotment added to our current budget. This is not new money, but new spending authority to cover the increased costs of prosecutions from that office.
- I do not anticipate any budget requests to the legislature for the 2021 session.

Finance

- The new fees went into effect February 1 and collections were understandably up. However, the Secretary implemented a six month delay in paying for renewals for all health professions. The first month of this renewal fee waiver has resulted in an approximate 30 percent reduction in paid renewals. While this will not permanently impact our budget as these renewal fees are due October 1, it has significantly blunted the impact of the fee increase. As a result, it may take slightly longer to reverse the downward trend in our fund balance than anticipated. We will know more specifics as we see additional months of renewal numbers pass and reach the October 1 deadline for payment of waived renewals.
- Despite the above renewals discussion, monthly finance reports remain encouraging from the standpoint of overall budget expenditures compared to projections, cost recovery through STIDS, and indirect charges from DOH.
- Due to reduced expenditures across DOH and COVID related impacts, which generates the formula percentage for indirect rate charges to us from the agency, the indirect rate charge from HSQA is anticipated to experience a reduction. We do not know at this time what the impact will be.

Communications

- I am regularly engaging with stakeholders on various issues relating to COVID and policy issues. The most recent as of this writing is the extension of the health care practitioner waiver proclamation by the Governor and Legislature to May 31.

Chair Request: Keeping in Contact During COVID

During the quarantine I am using regularly scheduled video meetings with individual staff, instant messaging, and ad hoc phone meetings. On May the Fourth, I held my first in-person meeting in the office.
Melissa McEachron, Director of Operations and Informatics

Operations and Informatics staff members continue to receive and work to complete contracts, expert witness contracts, and fulfill information requests, subpoenas for records, and provide assistance to our public disclosure unit.

Several processes are “going digital” and staff members completed or are in the process of completing training. Two examples: 1) using digital signatures on specific contracts and 2) digital archiving. A few members also attended virtual training on the new DOH Public Disclosure Request System that is scheduled to launch soon.

George Heye, MD, Medical Consultant

Nothing to report.

Morgan Barrett, MD, Medical Consultant

As most of you know, the April and May Personal Appearances were cancelled in conformity with the Governor’s Proclamation and prudent public health practices that have come to be known as “Social Distancing”. With advice from the Legal Unit, and abundant support of the Administrative Staff, we are currently exploring the potential feasibility, safety and desirability of hosting interim “Virtual Personal Appearances” (VPA) using GoToMeeting. We envision adhering to the conventional format (after the Business Meeting, Panels A and B, etc.) except for a change regarding the executive session. The first VPA will likely occur at the July Commission meeting.

Rick Glein, Director of Legal Services

Legal Staff Updates:
Richelle Little joined the Medical Commission on March 16 as our newest Staff Attorney. Richelle comes to us after working as a Staff Attorney in the HSQA/OILS division of DOH and is well-versed in the disciplinary process having worked on cases for the Dental Commission, Osteopath Board, and the Chiropractic Commission. Previously, Richelle worked with Institutional Review Board (IRB) members and physicians for four years at Western IRB. She provided regulatory guidance on a variety of medical research, including pharma and device studies. Richelle’s legal experience also includes criminal law, adult guardianship, estate.

Orders Resulting from SOCs:

**In re Dung X. Nguyen, MD, Case No. M2018-716, Agreed Order.** On February 20, 2019, the Commission filed a SOC against Dr. Nguyen. Dr. Nguyen operated a private practice clinic in Tacoma, Washington. During an investigation of a patient diagnosed with hepatitis C virus (HCV), staff members from the Department of Health’s Healthcare Associated Infection Program and the Tacoma-Pierce County Health Department visited Dr. Nguyen’s clinic and concluded that three intravenous “energy treatments” received at Dr. Nguyen’s office were a likely source of the HCV infection. An Agreed Order was signed on February 27, 2020, wherein Dr. Nguyen agreed to permanently surrender his medical license.

**In re Jackie S. Shuey, PA-C, Case No. M2018-589, Agreed Order.** On August 26, 2019, the Commission filed a SOC against Ms. Shuey. The alleged incidents in the SOC all occurred during a time Ms. Shuey worked as a physician assistant-certified at a state Department of Corrections (DOC) facility. An Agreed Order was signed on April 17, 2020, which found Ms. Shuey’s treatment of two patients did not meet the standard of care and Ms. Shuey failed to adequately supervise staff by allowing registered nurses and a medical assistant work outside the scope of their practices at the DOC facility. The Agreed Order provides four years of oversight and requires Ms. Shuey to work with another clinician on-site or have another clinician easily accessible; complete a CME course in professional boundaries; maintain NCCPA certification; research and write a scholarly paper; ensure submission of performance reports by her supervising physician; attend personal appearances; and pay a $3,000 fine.

Meeting Attendance:

On Friday, May 1, the Legal Office held a case law roundtable with Rick, Kyle, Jen, all six of our staff attorneys, and both paralegals in attendance. Additionally, Mike Farrell and all eight staff attorneys, including Rick’s counterpart, Karl Hoehn, from the Nursing Commission joined the ninety-minute call. Each of the Medical staff attorneys was given a case to present along with a series of questions that related to the practical application of the court’s holding on disciplinary cases. (For example, applying Brown to a hypothetical question from licensing staff.) Presentations were limited to fifteen-minutes. The presentation also gave SAs a chance to work on their virtual presentation skills. The cases covered were: Dang, Brown, Duggal, Yoshinaka/Seymour, Miles, Wade’s Gun Shop, and Nguyen/Ongom/Hardee. The response was positive and it was especially nice to have Mike and Karl there given their nearly sixty years of combined UDA experience. We may do something similar again later this summer with Nursing where we provide hypotheticals and the SAs prepare a proposed response.

Engagement While Telecommuting:

Kyle is meeting weekly in one-on-ones with all six staff attorneys. The calls vary from short check-in discussions to much longer focused discussions. The topics also range from relaying information from both WMC and DOH management to reviewing pending cases to talking
Rick Glein, Director of Legal Services, con’t

about more big picture topics. Kyle and Rick also meet individually with each staff attorney on the Tuesday or Wednesday prior to case disposition call to discuss each case where the RCM is presenting, i.e. not using the consent agenda.

Jen is holding weekly virtual team meetings with the Legal support staff. In addition, Jen is checking in weekly with individual support staff along with calling them for a one-on-one chat rather than using e-mail for random discussions to stay connected. The discussions range from big picture administrative topics, such as preparing for the Commission meeting, to specific discussions about case filings. Another component of the dialogue is the support staff’s overall health during this time, reminding them to effectively utilize the 30-minute wellness break offered by DOH; take consistent breaks from the computer screen; and change positions, being cognizant of stress and strain from working at their makeshift home office set-up.

Freda Pace, Director of Investigations

Good Morning, Commissioners!

The Investigative Unit continues to work remotely during this time. We meet virtually via Skype on a weekly basis or as unique needs arise to tackle the various business needs within our unit. We are working well in finding unique ways in adhering the Governor’s Proclamation by not only practicing social distancing, but being able to successfully fulfill our very important business needs. We have an awesome and talented group of commission staff that I have the pleasure of working with on a daily basis – I am truly blessed!

Sign-up vacancies! We have clinical slots still open for CMT from July forward (except for the week of July 8th). Please visit our signup sheet and grace us with your insight.

Lastly, I can’t go on without saying – Thank you! To all of you who are on the frontlines (and other healthcare professionals) during this pandemic, thank you for your daily commitment and care to our most vulnerable populations. Thanks for all you do.

If you have any questions or concerns regarding CMT or Investigations, please contact me directly. Freda.pace@wmc.wa.gov or 360-236-2740 (Work), 360-480-4694 (Cell).

Stay safe and be well!

Mike Farrell, Policy Development Manager

Nothing to report other than the items on the policy committee agenda.

Jimi Bush, Director of Quality and Engagement

We are looking at how we can better provide information to our stakeholders. We are looking at revamping how data is visualized on our website, how communications with the general public can be improved and streamlining the licensing process. We are also putting together online educational opportunities so that we can continue to provide educational opportunities to our licensees.

Do you have a suggestion for the newsletter? From content to format, if you have a suggestion for the newsletter. We would love to hear from you.
I am finalizing speakers and obtaining CME for the October Conference. Please let me know if you have any suggestions.

If you have any comments or suggestions, please email Jimi.
