

IMG Workgroup Assignments

- Study barriers to practice and make recommendations on how the state can implement an international medical graduate assistance program by January 1, 2022, to assist international medical graduates in integrating into the Washington health care delivery system.
- The work group must:
 - (a) Develop strategies and recommendations for reducing barriers for international medical graduates obtaining residency positions in Washington, including pre-residency training;
 - (b) Make recommendations for the appropriate number of residency positions to be designated for international medical graduates, and the locations and specialties of those positions; and
 - (c) Make recommendations on the post-residency service requirements for international medical graduates who graduate from a designated residency position.
- (4) The work group must submit a report to the governor and the legislature with its recommendations by December 1, 2019.
