

# FEBRUARY FREEZE

## Statewide Licensing

The Department of Health is upgrading the licensing and credentialing system for health professionals and facilities. To complete the next phase, the systems will be unavailable during President's Day weekend.

### Avoid Delays!

#### A new statewide licensing system is coming!

The system is called HELMS: Healthcare Enforcement & Licensing Management System.

#### The next phase of the system will launch in February

Prior to the launch of credentialing in HELMS, there will be a short freeze of the current licensing and credentialing systems to migrate data and transition to the new system.

#### If your license expires between February 14-19, 2025, renew up to 90 days early!

Applications and renewals will be paused during the freeze. Apply or renew in January to avoid delays.
