

Physician Assistant (PA) Continuing Medical Education (CME) Requirements

[\(WAC 246-918-180\)](#)

(1) Licensed physician assistants must complete one hundred hours of continuing education every two years as required in chapter [246-12](#) WAC, Part 7.

(2) In lieu of one hundred hours of continuing medical education the commission will accept a current certification with the National Commission for the Certification of Physician Assistants and will consider approval of other programs as they are developed.

(3) The commission approves the following categories of creditable continuing medical education. A minimum of forty credit hours must be earned in Category I.

Category I Continuing medical education activities with accredited sponsorship

Category II Continuing medical education activities with nonaccredited sponsorship and other meritorious learning experience.

(4) The commission adopts the standards approved by the American Academy of Physician Assistants for the evaluation of continuing medical education requirements in determining the acceptance and category of any continuing medical education experience.

(5) It will not be necessary to inquire into the prior approval of any continuing medical education. The commission will accept any continuing medical education that reasonably falls within these regulations and relies upon each licensee's integrity in complying with this requirement.

(6) Continuing medical education sponsors need not apply for nor expect to receive prior commission approval for a formal continuing medical education program. The continuing medical education category will depend solely upon the accredited status of the organization or institution. The number of hours may be determined by counting the contact hours of instruction and rounding to the nearest quarter hour. The commission relies upon the integrity of the program sponsors to present continuing medical education for licensees that constitutes a meritorious learning experience.
